

## TEMPORARY 4 Geologists, 1 Geological Technician & 3 Core Cutters

Mid – March to August 2017 (approximate)

Victoria Gold Corp will be conducting a geological mapping and diamond drill Exploration Program and is accepting applications from individuals who are interested in the role of **Geologist, Geological Technician, & Core Cutter**.

The positions may either be based out of the Victoria Gold's Eagle Gold camp and/or regional exploration camp, individuals will work a 3 weeks in – 1 week out rotation (12 hours a day) for the duration of the program.

The Geologist positions will require individuals with post-secondary education in Geology or earth Sciences and preferably with previous experience in geological mapping and drill programs.

The Geological Technician position will be trained at site. The individual will be working with the Geologist to ensure proper geotechnical procedures are followed and must be able to lift heavy core boxes.

The Core Cutters will be responsible for cutting diamond drill core using a rock saw and or manual core splitter, bagging and tagging drill core samples. The individual will be working with the Geologist to ensure sampling procedures are followed and must be able to lift and carry heavy core boxes. Previous experience splitting drill core and the ability to use a rock saw would be an asset.

Please note that Victoria's Eagle Gold camp and all our exploration camps are "DRY FACILITIES". We are looking for individuals with

- Positive Attitude
- Clear Criminal Record
- Ability to work in a remote site
- Good Interpersonal Skills

If you are interested in these positions please submit your resume to Natasha Young, NND Victoria Gold Community Liaison in person (Government House) or by email to [natasha.young@nndfn.com](mailto:natasha.young@nndfn.com)
