Community Consultations

WE WANT OUR PEOPLE TO BE STRONG

At the February 2017 General Meeting, a resolution was passed that called for:

1. A review the way that existing programs and services for citizens are delivered and to look at whether those programs are creating dependence or helping our citizens become self-reliant.
2. The design of a holistic way of helping our people to be self-reliant, including budgets, policies, and changes to the departmental structures of the government, if necessary, for approval by the Assembly

WE HAVE A PLAN

Together, we have been working on a new way to deliver services to our citizens and we want to share it with you. Please join us at a community consultation session to learn more about what we're thinking and to share your thoughts. Have we got it right? What can we do to make it better?

We are looking at making some big changes and your voice matters.
