

JOB POSTING

ARCHER CATHRO

FIELD GEOLOGIST

ATAC
RESOURCES LTD.

Archer Cathro is looking for Field Geologists for the 2017 field season. Seasonal positions are available for our summer operations located in rural areas in Yukon. The Field Geologist reports to the on-site Project Manager, who will provide general direction and support. The successful candidate will have a thorough knowledge of exploration geology, be organized, detail oriented and have great communication skills.

Responsibilities:

- Have a basic understanding of the regional geology of Yukon and Northern British Columbia
- Conduct geochemical sampling, core logging, prospecting and mapping
- Collect and process geological and geochemical data
- Coordinating field program planning and logistical support
- Administrating, managing, analyzing and QA/QC of data
- Communicate with supervisors on a regular basis and report exploration observations in a timely manner
- Actively seek opportunities to recognize health and safety hazards, and resolve safety issues to reduce risks in the workplace
- Ensure good housekeeping in the work area at all times
- Maintain a high performing, team orientated and productive work environment
- Promoting the importance of Safety, Health and Environment in the workplace

Required Knowledge/Skills:

- B.Sc. Geology graduate or 3rd / 4th year geology student with 1+ years of relevant work experience
- Experience prospecting and mapping
- Proficient with navigational and mapping tools
- Proficient with Microsoft Office Software
- Experience using MapInfo or other GIS software
- Geologic logging, teching and sampling of drill core or RC chips
- Physically fit

Preferred:

- Have worked in remote camps
- Supervisory or management skills
- Experience with modeling software such as LeapFrog
- Experience with coding and database maintenance
- OFA Level 1 First Aid
- WHMIS
