

# JOB POSTING

# FIELD TECHNICIAN

ARCHER CATHRO

Archer Cathro is looking for Field Technicians to provide support to our on-site project geologist at our various project sites. Seasonal positions are available for our summer operations located in rural areas in Yukon. The Field Technician reports to the on-site Field Geologist and Project Manager. The successful candidate will be physically fit, have exceptional communication skills, be detail oriented and have an interest in early stage mineral exploration programs.

## Responsibilities:

- Participate in soil sampling, core teching, and core sampling
- Assist in the collection and processing of geological data
- Sample drill core using a wet saw or a manual splitter
- Aid the on-site geologist in prospecting and mapping
- Actively seek opportunities to recognize health and safety hazards, and resolve safety issues to reduce risks in the workplace
- Ensure good housekeeping in the work area at all times
- Maintain a high performing, team orientated and productive work environment
- Promoting the importance of Safety, Health and Environment in the workplace

## Required Knowledge/Skills:

- Basic knowledge of exploration geology
- Navigational skills, ability to read topographic maps, use GPS and compass
- Experience using Microsoft Office
- Interest in becoming a geologist
- Ability to lift 50 lbs and be physically fit

## Preferred:

- Previous soil sampling or tree planting experience is an asset
- Previous prospecting and mapping experience
- Database and data entry experience
- OFA Level 1 First Aid or better
- WHMIS
