7.

What do you hope to achieve if you were elected for office?

There are plenty of things I would hope to achieve if elected for office but I feel I am most passionate about addictions and mental health. I see a real need for more programs and services for mental health and addiction. How can we ever be self-reliant if we are struggling with these issues? I feel like there needs to be more education on mental health so it's not just sweep it under the carpet and disregarded, it's time to shine a light on these issues and find solutions for dealing with them.
