

Hello, all citizen my name is Shawn Germaine of the wolf clan. I am running for councillor position. My parents are Paula Germaine and Norman Moses, my grandfather Paul Germaine and Sophie Germaine, my grandma was Mary Moses. My common law wife is Krista Patterson, we have two handsome boys Kody and Ira. I have an older son and two daughters. I have lived in Mayo for most of my life. I am an avid outdoors person who loves hunting and fishing this is what I enjoy. I have worked for NND for many years from high school student to now. I have my 4<sup>th</sup> year in carpentry with Yukon College, and have many courses and tickets throughout the years.

If elected I want to work towards a positive and harmonious government. I would like to work on addressing the housing issues, our health and living, working on more wellness issues for more aftercare programs, and education for all citizens and treat everyone with equality. I would work along with the youth and elders to address any concerns they may have. We need to run more programing that will help educate our people that will make us a better self government. I am working on my sobriety and have been sober for 18 months. I want to work on helping people both from our community and elsewhere to address healthy living, we need more aftercare programs and we need to help people struggling with addiction, more land based programs along with education. I will work on looking after our traditional territory our land, water and air. I don't want to see any more mining in or near our traditional territory we need this land for future generations to come, as we see our animals are slowly decreasing. We have the biggest traditional territory in the Yukon and we must start taking care of it.

Thanks for taking the time in reading this, and good luck to all candidates.

Mussi Cho, Shawn Germaine.
